

ATTPC

Pipe Clamp Adapter

EASY & QUICK MEASUREMENTS IN CROWDED ENVIRONMENTS

- Measures 1/4" ~ 3" pipe circumference*
- Surface probe capability
- Compact & Easy to use

*Limited by length of Velcro strap.

ATTPC • Pipe Clamp Adapter

The ATTPC pipe clamp and surface probe works with any meter using K-type thermocouple inputs. This unique design has a spring-loaded sensor to maintain constant contact with the measuring surface and is thermally isolated from ambient temperatures to preserve accuracy. A Velcro strap wraps around the pipe, reattaching to the probe housing, quickly securing it for reliable thermal contact. The compact size and securing method make for easy and quick measurements in crowded environments or where tubing is against appliance panels.

The ATTPC has the following features:

- Measures 1/4" ~ 3" pipe circumference*
- Surface probe capability
- Temp range -40°~250°F
- ±0.75rdg or 2.5°F
- Compact & Easy to use
- One year limited warranty

*Limited by length of Velcro strap.

Specifications

To attach sensor

Wrap Velcro strap around pipe and thread thru collar on sensor shaft.

Plug adapter into any meter that has temperature sensor inputs.
